The above mentioned game is approved for use in New Jersey as an amusement game, as defined in the Amusement Game Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the specifications submitted and the terms of this certification. Any modification of the manufacturer's specifications or the specified method of play immediately voids this certification.

It is unlawful to license or operate any amusement game in the State of New Jersey without a valid Certification of Permissibility or in a manner not in accordance with Certification of Permissibility issued for the game. This Certification of Permissibility contains three pages. This is page 1 of 3

## GAME DESCRIPTION

The Giga Cranes consists of three variations of cabinets which are following models "600", "900" and the "GIGA series. The "600" series can be in either 2 or 3 player positions, the "900" series and the Giga crane which are configured for either 1 or 2 player positions. It is first played by inserting tokens or money into the coin or bill acceptor. The crane uses an electronic/mechanical claw, which the player moves using the joystick control located on the exterior of the machine. The button on the joystick is pressed when the player has positioned the claw. The claw drops automatically and attempts to grab an item for retrieval. If the player does not drop the claw within the allotted time, the claw will drop automatically and attempt to lift a prize off the play field. If the claw does not grab a prize or the prize drops in transit, the claw will return to the redemption area, but no prize will be awarded.

## MODIFICATIONS

The modifications to the previously approved Giga Crane version IGR 0106 R04 to the latest Giga Crane version IGR 0106 R06 is as follows:

- Credit bonus system (discounting), which allows the device to accept more than one game's worth of credit by offering a multiple game play purchase.
- Mechanical Diagnostic is an additional option located in the settings options which records all mechanical errors that have occurred during game operations.
